

Department: Fleet

Job Title: Snow Equipment Technician

Type of Position: Seasonal. 30 to 40 hours a week

Duties and Responsibilities:

We are looking for a mechanic that has specific experience with snow removal equipment (plow trucks, sidewalk pushers, skid steers, loaders, and sanders). The applicant will need to go through and test all equipment to ensure it will be ready to go for the first snowstorm of the season. They will need to install the plows and wire harnesses on the 5 to 6 trucks that plow for us. The applicant will need to demonstrate strong traits of safety and organization by keeping their workstation clean in our shop.

Qualifications:

5 years of a background in mechanics.
